
***Bar Print Pro* from Lefkowitz Systems, Inc.**

The Best Inventory Label Printing System for Pro Series!

What is *Bar Print Pro*?

Bar Print Pro is an enhancement for Pro Series 5.0 (VFP backend) and higher that prints bar-coded inventory labels.

What kind of labels does *Bar Print Pro* print?

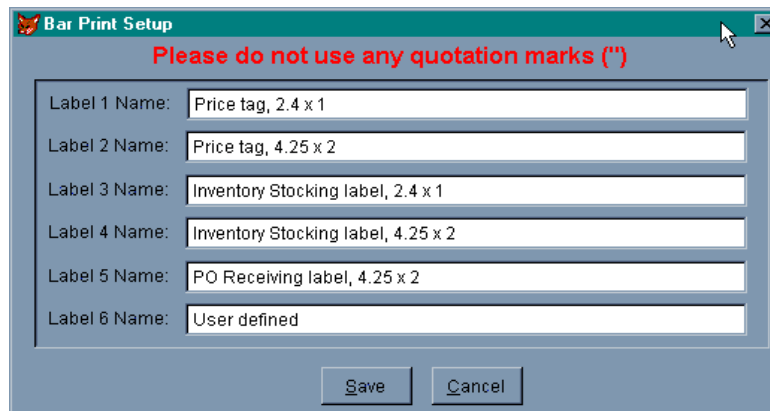

Any kind. Price tags, stocking labels, and PO receipt labels, for example.

Does *Bar Print Pro* print true Windows labels?

Yes! You are not tied to a single printer model, font or printer port. All *Bar Print Pro* labels are printed through the Windows Print Manager.

How many *Bar Print Pro* label formats do I get?

Six. Set up each for different purposes. Select the label when you print.

Are the *Bar Print Pro* labels user-modifiable?

Yes, and modifiable under program control. You don't even need a copy of Visual FoxPro!

How are the inventory data for the **Bar Print Pro** labels selected?

- By item
- Range of item
- Item location
- Purchase order number and PO number range
- By sales order number
- Receipt date
- Default supplier
- Inventory class and commodity code
- Serial number

Can I print bar code labels while receiving purchase orders?

Yes, and **Bar Print Pro** will print labels for only the items received.

Does **Bar Print Pro** support serial numbers?

Yes! Include or exclude serial numbers in the option grid setup. Tag serial numbers to print all labels, none or by individual serial number.

Do I have to print an item's list price or can I use price codes?

Either way is fine. You decide. Print list prices, price code prices, both or neither!

Do I need a source code license to use **Bar Print Pro**?

No, never! **Bar Print Pro** runs off of the Custom menu. All **Bar Print Pro** programs are external to Pro Series. No modification is made to Pro Series.

Does **Bar Print Pro** come with source code?

Yes.

Contact your Pro Series reseller to purchase a copy of **Bar Print Pro**! Or download a free, trial version of **Bar Print Pro** from our web site!
